## Popular restaurant accused of serving cheap Vietnamese catfish to customers who thought they were getting Australian dory

- A Melbourne restaurant has been accused of serving catfish to customers
- Hunky Dory has allegedly been selling frozen fillets of basa as dory
- Owner Greg Robotis has denied allegations he is misleading customers
- The City of Port Phillip is investigating Hunky Dory's Port Melbourne store

A Melbourne restaurant has been accused of serving a Vietnamese catfish to customers who believe they are ordering Dory.

A whistleblower has alleged that Hunky Dory outlets have been selling frozen fillets of basa, a species of catfish native to the Mekong basin, as fish-of-the-day dory, [The Age](#) reports.

Owner Greg Robotis has denied the claims and said inexperienced staff may have been calling the fish the wrong name.

Aussies! No surprises there...

Novel AI variable-width input multi-scale resolution-invariant pre-trained analysis algorithms for rapid mass spectrometry datasets of marine biomass.

- 1 fish **species** & body **part identification** → multi-scale resolution-invariant binary & multi-class classification, respectively;
- 2 **quantitative contaminant analysis** → multi-label classification & multi-output regression & out-of-distribution outlier thresholding; and
- 3 **traceability** → few-shot similarity-based contrastive learning for pair-wise comparison & instance recognition.
